

Quality Policy

SENSEOR strives to use its deep understanding of the SAW technology capabilities and its comprehensive monitoring solutions for the Temperature and Partial Discharge constraints in the Medium & High Voltage Electricity distribution and management market to eventually propose a robust and plug & play solution at best value for money.

SENSEOR is committed to:

- ✓ Targeting maximal customer satisfaction through efficient processes
- ✓ Continuously enhancing its products and the effectiveness of its Quality management system by establishing & reviewing Quality objectives
- ✓ Ensuring communication within our key stakeholders
- ✓ Relying on close partners to develop & manufacture our products
- ✓ Ensuring compliance with all statutory, regulatory and customer requirements

let's tackle relentlessly the challenges of providing the best state of the art at the highest level of Quality !
